APPLICANT: BRISON, Paul Stanley

SERIAL NO.: 10599419

ART UNIT: 2821 (Conf. 8579)

FILING DATE: 2007-06-25

EXAMINER: Alemu, E.

TITLE: APPARATUS AND METHOD OF POWER CONTROL

Amendment A: Remarks

In the Official Action, restriction was required between the subject matter of Group 1, namely Claims 1-15 and 32-40 as drawn to the power controller for controlling power delivery to a light responsive to stimulus and Group II, namely Claims 16-31 as drawing to the power controller with a heat sink.

In response to the Official Action, Applicant herein elects Group I, namely Claims 1-15 and 32-40 as drawn to the power controller for controlling power delivery to a light responsive to stimulus. Applicant reserves the right to take such other measures as may be appropriate so as to protect the subject matter of Group II, such as the filing of a divisional patent application.

The present Amendment A is being filed concurrently with a Petition to Extend Time and requisite fee.

Since no new claims have been added above those originally paid for, no additional claim fee is required.

Based upon the remarks herein, Applicant contends that an Official Action on the merits is in order and such is respectfully requested. Please feel free to contact the Applicant's attorney by email [achu@awciplaw.com](mailto:achu@awciplaw.com) or by telephone at 866-334-9307, if there are similar clarifications required.

Respectfully submitted:
